

# IA and the Personal InfoCloud

Thomas Vander Wal  
Presented to: IA Europe Summit  
October 16, 2005 in Brussels, Belgium

# The Focus of the Web has Changed

# Was

# I Go Get

- ❖ We sought “their” information
- ❖ Focus on content provider
- ❖ One device
- ❖ One use
- ❖ Proprietary formats
- ❖ Findability focus
- ❖ Design metaphor was navigation

Is

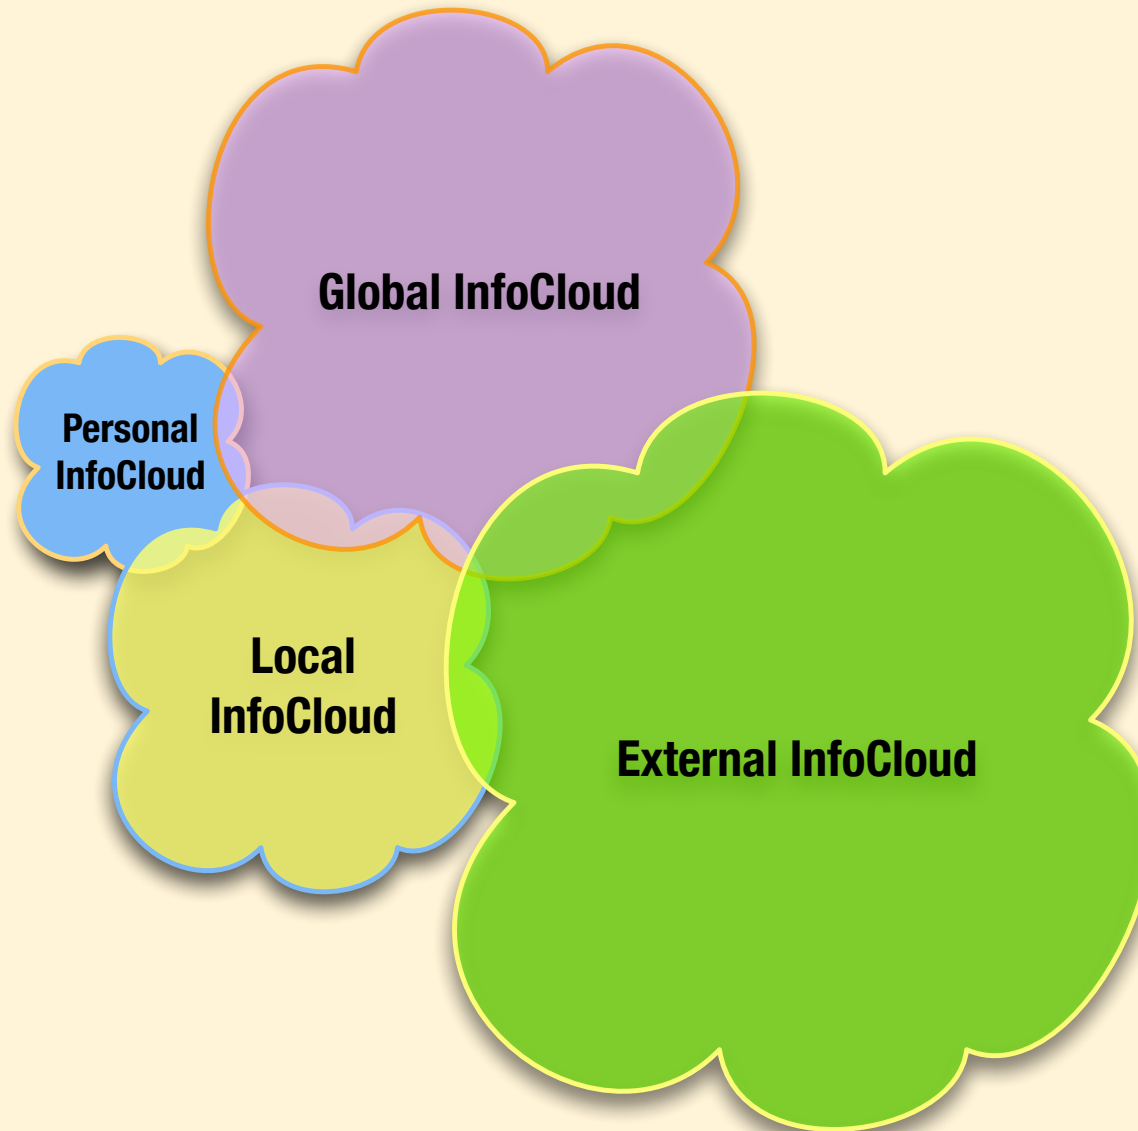

# Come To Me

- ❖ Our information we found or created
- ❖ Focus on person using
- ❖ Reuse
- ❖ Attracting and keeping attracted
- ❖ Across devices
- ❖ Open formats
- ❖ Refindability focus
- ❖ Design metaphor is attraction

# **Personal InfoCloud**

# InfoClouds

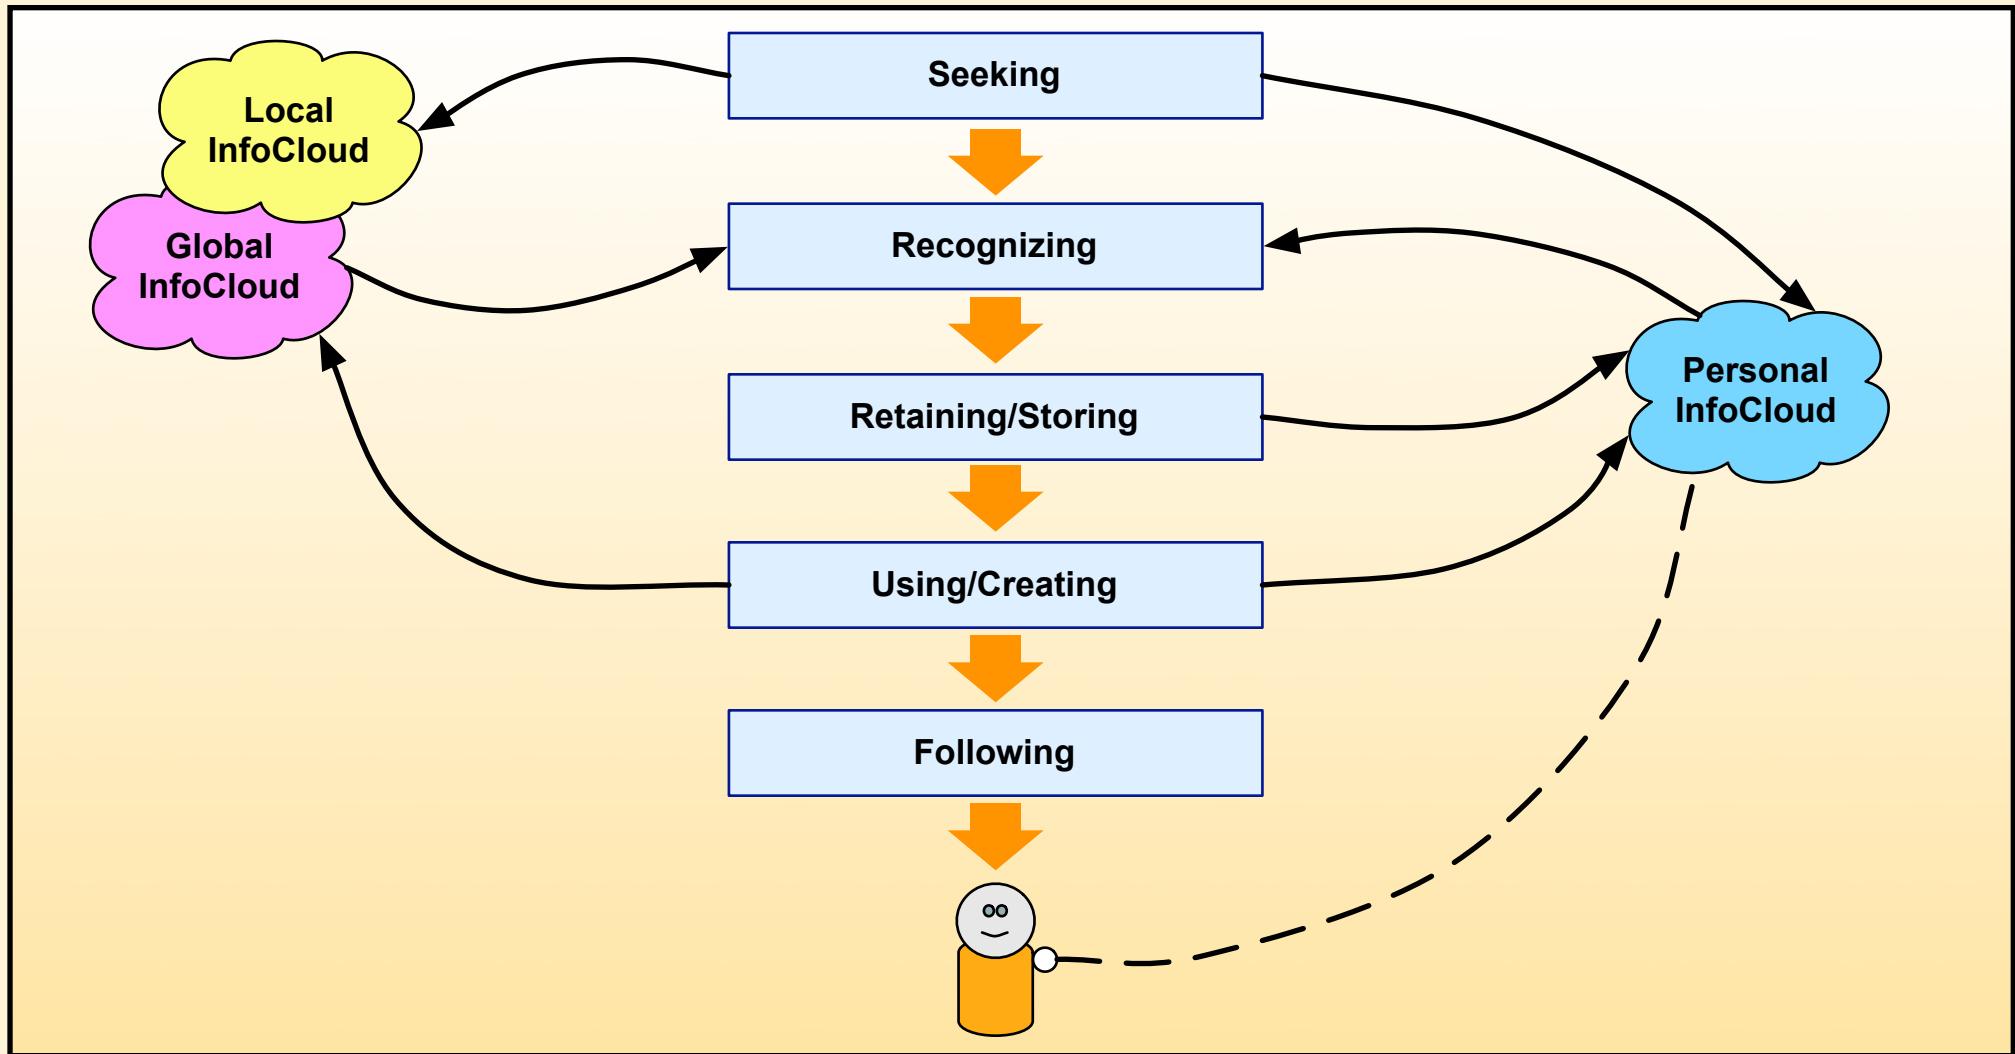

# Model of Attraction

# MOA - Receptors

# Personal Info Cycle

# Work

## Desk

# Mobile

## Transit

# Home

## Living Room

## Meetings

## Driving

## Office

# How to: PIC for IA

- ❖ Build persona including:
  - ❖ MoA receptors
  - ❖ Location/environment
  - ❖ User tasks/context
- ❖ Design for adaptability
  - ❖ People have their own perceptions, needs, and uses for the information

# Granular Content Assessment

- ❖ Assess what you provide - get granular
- ❖ Content inventory
  - ▶ Site structure
  - ▶ Page types and document types
  - ▶ Content object types on the pages
  - ▶ Related objects
  - ▶ Content volatility (frequency of change)

# Assemble Information for Use

- ❖ Learn what people do with your information
  - ▶ Want to do
  - ▶ Could do
- ❖ Various use contexts
  - ▶ What triggers use
  - ▶ Many environments
  - ▶ Actions for reuse
- ❖ Usable formats for content object type
- ❖ What action follows information use?

# Structuring Information

- ❖ Structure information and its container for
  - ❖ Deep linking
  - ❖ Externally stored usage
  - ❖ Externally structured

# Focus: Person & Info Reuse

- ❖ Learn what people do with your information
- ❖ Understand various use contexts of the for the information and the context and actions for reuse
- ❖ Build scenarios

# Design & Develop: Standards

- ❖ Information offerings:
  - ❖ Flexible
  - ❖ Open Standards
  - ❖ Proprietary or Application-based Standards
  - ❖ API Friendly
- ❖ Offer more than one option
